**New Advanced Scalp Acupuncture**

**A Unique Microsystem!**

**The Human brain is an important organ with special functions. It receives vital energy (Qi) and also influences the functions of our vital energy by its own energy fields. Our BRAIN generates its own special Qi (pranic energy). The Brain is the Link between our Physical functions, Mind functions and Consciousness (Shen).**

**The Energy meridian system of Acupuncture is divided into 3 yang and 3 yin channels. All the Yang meridians of the Hand and Foot meet at the head making it the Yang most energy junction of the body. Thus, the head assumes the most important role of controlling all the functions of our body thru the face & scalp points.**

**N.A.S.A. is a system developed by Dr Mayank Shah & Dr Chiraag Shah which amalgamates traditional Scalp acupuncture, modern Scalp Acupuncture, Indian Chakra system with some new concepts making it a new powerful healing Microsystem.**
